REMI LOUNGE

# Remi – Soft Revolution

BioPur® Foam is an innovative type of polyurethane foam that incorporates bio-based materials as a significant component of its formulation. This eco-friendly alternative to conventional foam is designed to offer similar, if not superior, performance characteristics while substantially reducing environmental impact.

#### Reduced Carbon Footprint

BioPur® foam production reduces carbon emissions by up to 75% compared to traditional polyurethane foams, offering a substantial environmental benefit.

#### Renewable Resource-Based

The foam is derived from renewable biological sources, such as plant-based materials, which minimises dependency on petroleum-based products and supports the sustainable use of natural resources.

#### Durability and Performance

BioPur® foam does not compromise on performance. It exhibits high resilience, long-lasting durability, and excellent support properties, comparable to conventional foams.

#### Sustainable Manufacturing Processes

The production of BioPur® foam involves processes that consume less energy and produce fewer emissions compared to conventional foam manufacturing.

#### Clean Air

BioPur® foam is manufactured without the use of harmful chemicals, with low volatile organic compounds (VOCs) and trace formaldehyde, common in traditional foams, improving indoor air quality and overall health.

# RHINE

KEN REINHARD

The Rhine Collection is defined by its organic round forms, revolutionary horizontal expression, and unmatched reconfigurability.

Meticulously crafted by hand, Rhine transforms public spaces with boundless spatial freedom or creates intimate conversation zones.

Featuring chairs in static, swivel, and mobile options alongside integrated companion tables, this modular collection creates inviting compositions that bring warmth and refinement to a space.

*Every stage of Reinhard's design process is **done by hand**, from initial sketches to refined scale models and final prototypes.*

# KEN REINHARD

Maryland based industrial designer

Founder of Ken Reinhard Design Associates, an award-winning design firm specializing in contract furniture.

Reinhard's philosophy: simplicity and elegance, a design is finished "when there is nothing left to take away."

Reinhard participated in the company's founding in 1979, designing HBF's first product line.

BAO OTTOMANS | FIRMA TABLES

HBF

BAO OTTOMANS

A dramatic still life scene set against a backdrop of heavy red curtains. The central focus is a large, dark-colored sofa with a prominent ribbed texture, leaning at an angle. To its left, a white drum with wooden hardware sits on the floor. In the foreground, a small green bottle and a broken glass are scattered. To the right, a white chair with a textured seat and backrest stands near a tall, cylindrical floor lamp that emits a warm glow. A small, round, textured stool with a metal handle and a small floral arrangement on top is positioned in front of the chair. The overall atmosphere is moody and artistic.

VELVET CORD 1099

# VELVET CORD 1099

Velvet Cord is the protagonist: commanding attention with precise raised ridges that run in perfect linear formation. Each ridge features alternating velvet pile directions which creates tonal banding—an additional layer of light play within the structural pattern. Light and dark bands run parallel within each ridge and shift with light conditions and viewing positions. Velvet's natural luster enhances the dimensional effect, transforming flat upholstery into a dynamic surface that changes from moody and intimate to bold and sculptural as lighting conditions change.

Available in 10 colorways, Velvet Cord is woven from a proprietary performance luxe yarn that performs at 100,000 double rubs and is bleach cleanable.

**DESIGNER** HBFT Design Studio

**PATTERN** 1099

**COLORWAYS** 10

**APPLICATION** Upholstery

**CONTENT** 93% Polyester, 7% Polyacrylic, 100% Polyacrylic Face

VELVET MIX 977

# VELVET MIX 977

The best-selling Velvet Mix returns, completing its story with an expansion of hues long imagined, now realized—seven moodier, intimate colors that embrace depth and drama. These richer tones expand the pattern's emotional vocabulary, speaking to interiors that value atmosphere over convention.

The luxurious velvet maintains its bleach-cleanable durability without compromising sensual character. Woven using proprietary performance luxe yarn, these additions prove true luxury isn't fragile—it lives, endures, and deepens with time. The expansion introduces seven new colorways for a total of 26.

BLENDED BOUCLE 1103

# BLENDÉD BOUCLE 1103

Thousands of irregular loops hold and release brightness against contrasting foundations, while unexpected metallic threads add shimmer as light shifts. Each loop claims its own height and character, forming delicate topographies in an ever-evolving dialogue of color and texture. The plush construction invites touch while revealing new secrets with every glance—craft that engages both hand and eye.

Available in 11 colorways, Blended Boucle is bleach cleanable and performs at 70,000 cycles (Martindale).

PETITE SUEDE 1102

# PETITE SUEDE 1102

Unlike the collection's other patterns that illuminate, this sophisticated suede creates depth through color saturation and tactile invitation. Its ultra-soft matte texture deliberately absorbs light rather than reflecting it—a deliberate pause that grounds the collection with quiet confidence.

Available in 13 colorways, Petite Suede is bleach cleanable and performs at 200,000 double rubs.

PATTERN	1102
